NUT TREE NURSERIES

JOHN W. HERSHEY, Owner
Downingtown, Pa.

This Nursery is National Headquarters for Information on Scientific Tree Crop Culture—The salvation of our hills.

Get Rich without plowing. Grow crops on shade trees.

"Plant until you're Planted"

MAR 8 1955

U.S. Department of Agriculture

WE DON'T GROW TREES TO SELL
WE SELL TREES TO GROW

$$\frac{\text{Idle People}}{\text{Idle Acres}} + \frac{\text{Idle Money}}{\text{Tree Crops}} = \text{Prosperity}$$

NOTE: We have some over sized trees, especially Oak, Chestnut and Black Walnut too large to pack.

CHESTNUTS: Thank the Lord we have lots of them. In fact, we're the only nursery in America that has a large inventory of large trees.

This loaded Chinese planted Spring, 1950, helped toward our fun crop of chestnuts last fall. Shortly we expect to have it prying on the mortgage. Don't quit farming because there's no money in it. Sell your overstock of equipment—put the money in crop trees. Grow your feed cheaply. You'd be surprised.

NOTE—LOCATION—4 miles Northwest of Downingtown at Guthrieville on U.S. Route 322 (Horseshoe Pike.) Turn north at stone school house $\frac{1}{4}$ mile past Guthrieville, third place on left. Coming from the West turn left second road past the old Manor Church. From super highway, get off at Downingtown, follow signs to Eagle, turn left at hotel, continue about $6\frac{1}{2}$ miles, see young nut grove on left, turn in, first farm on right. NO SUNDAY BUSINESS.

CALL CUSTOMERS:—Please mail or phone your order ahead. We're geared to mail order shipping. Glad to see you but must fit call orders in. Thanks.

A WORD TO OUR FRIENDS AND ENEMIES

Who plants America? People 70 to 90 years old are our best customers while the younger man just can't wait on something that don't bear in 5 minutes. But more young people are buying all the time. Why? Earlier maturing! A "sooner" looking toward GOD and things that endure.

PLANT, PLANT, PLANT.

HOW WELL WILL AMERICA EAT IN 1975

asks the scientist? The answer is—How well will America put her "hill soil" to work. Don't let the surpluses disturb you. Our agric'lly abused soils will suddenly leave us in the lurch. Then what will we eat? Plant "Tree Crops" now and have them bearing when slacked off "plow production" crosses with 20 million extra mouths to feed. Think it over and write me about 10 or 100 acres of chestnuts.

CAN A FARMER CONTINUE IF HE ONLY CONSERVED HIS COWS, CHICKENS AND SEED? CONSERVATION IS NEGATIVE.

Nature is positive—a creator and re-creator—producer and re-producer. Recently Congress voted a medal to Irvin Berlin for a ditty on how wonderful it was to live on America's un-earned bounty. I say let 'em vote medals for those who "lead in the renewing of God's bounty", soil, water and trees. Pay a bounty for "doing" instead of chattering about "enjoying what we took". Make your slogan "BETTER THINGS FOR BETTER LIVING THRU LIVING THINGS." Let's go America. THE HERSHEY WAY. This folks is the starting at the beginning of—growing our trees in proper soil, organically managed. Then selection of seed for understock and scions to graft with.

Take advantage of quick production by setting our large healthy trees organically grown. It'll help you get rich without plowing. Here, on America's No. 1 Tree Crop farm, we find 8-10 ft. trees 5 yrs. ahead of small trees in 3 yrs.

Organically grown—There's no stuttering and no alternative. (For the Best You Must Plant The Best). Organically grown trees proved their worth as never before in droughts. Few die for customers.

NEXT STEP—We cut the tops—the branches—in short "the brush" off them to balance with the roots

sheared off in digging, to give them a chance to start for you. Then dip in a costly wax to keep them from drying out until started.

All these things—plus our 30 years of experience in progeny testing makes just one place to buy better nut trees. That's here.

PLEASE NOTE: That crook in the stem of the tree is the "Hall Mark" of quality. If it isn't there, your tree isn't grafted.

Let us continue to serve you. Thanks for your many good wishes and the same to you.

TERMS

Prices subject to change without notice.

We like cash with order except where special terms are arranged or from old customers with good credit.

All prices f.o.b. Nursery. Orders up to \$5.00 of small size stock can be mailed—add 13% for all orders to be prepaid. 20% West of Miss. **Minimum prepaid cost** for express \$1.85.

Prepaid shipments are only made for the accommodation of the customer. Extra charges on heavy or distant orders must be paid by the customer.

Express, delivers in half the time—few losses, no squawks on claims. Freight is best for heavy shipments.

Our responsibility for transportation ceases when shipment has been delivered to the hands of the carrier (or transportation agency).

No order where an affidavit must accompany invoice will be considered for less than \$10.00.

Please Note: We can not guarantee our trees to grow. Planting instructions are attached to the order. For cultural care our \$1.00 booklet (see back page) will be your guide. Follow it and you'll be proud you planted.

All trees cut back and waxed dipped.

NOTE—We've taken over the Sunny Ridge Nursery.

PLEASE NOTE: If you have some ground you would like to put to use—don't know what to plant, come and talk it over. I'll help you. Make an appointment if possible.

✓ **Chestnuts (Chinese)** *Castanea Mollissima*

Sweet, delicious, Blight resistant.

Will not thrive on damp or heavy soils.

Set 40 x 40 feet for orchard 28 per acre.

Plant two for pollination. Bears 3-5 years.

These are the finest, heavy calipered largest sized quality trees offered in America.

A sprinkling of nuts cover the block.

They come so nearly true from seed, we recommend the planting of seedlings for home and commercial use. A large field awaits the use of the Chestnut for marketing and hog feed. I've planted 300.

One man reported his 21, 13-year-old trees bearing 1,836 lbs. Want in on it?

A most marvelous opportunity awaits the planters of these blight resistant chestnuts. But remember. We're selling you lawn beauty and nuts or a good bank account in a commercial planting. Trees grow low-spready, with a tendency to crookedness. Don't buy if you prefer a straight clothes tree to future beauty and nuts.

✓ **ABUNDANCE SEEDLINGS**—We are proud to be able to offer this rare superior selection. It would thrill you to see this block of two year chestnuts growing in spite of the draught.

Here's my chance to clean up. Years ago we quit selling one year seedlings. They transplant so poorly. But people **MUST** buy stock that don't cost much and others are supplying it. These strong two year trees are making a terrific growth so we're pleased to offer these

as the next poorest offer for the man who loves the satisfaction of planting several hundred in the weeds to be forgotten. That is the 12-18 in. size. Excellent for lining out in the garden.

For the "green thumb" artist who "lives and loves" what he does 98%, will grow regardless of where planted.

From the Abundance seed. The very-very best 2 year only. Six at dozen rate. 50 at the hundred rate.

	Each	Dozen	Hundred
12-18 in., 3 for \$2.40.....		\$ 8.00	\$ 60.00
18-24 in., 3 for \$4.50.....		15.00	100.00
2-3 ft.....	\$1.75	17.50	125.00

SEEDLINGS FROM SELECT SEED.

	Each	Dozen	Hundred
12-18 in., 3 for \$2.00.....		\$ 7.00	\$ 50.00
18-24 in., 3 for \$2.75.....	\$1.00	10.00	70.00

	Each	Dozen	Hundred
2- 3 ft.....	\$1.25	\$12.50	\$ 90.00
3- 4 ft.....	1.75	17.50	125.00
4- 5 ft.....	2.25	22.50	160.00
5- 6 ft.....	2.75	27.50	210.00
6- 7 ft.....	3.25	32.50	250.00
7- 8 ft.....	3.75	37.50	285.00
8-10 ft.....	5.00	50.00	370.00
8-10 ft., extra heavy.....	6.00	60.00	425.00

SPECIMEN SIZE 2-3" caliper, 10-15 ft. very heavy. We've had reports of these setting fruit the second year from planting. Loaded on trucks only, or delivered. \$10.00 each or \$100.00 per dozen. A few extra heavy \$15.00 each. Many of these are spaced for balling if you can get a landscape man to do it. We are not equipped to ball. **Note:** Many are bearing this year.

About Grafted Varieties. Due to ill health we've eliminated grafting chestnuts. But hope to graft again soon to get that "hurried" customer's dough.

I have 4 acres of grafted trees. They really thrill you the way they load themselves from childhood. N' you need the thrill to counter balance the "let down" as "so many" dies each year.

Japanese Chestnuts—*C. Crenata*.

Good bearers. Large nuts
Poor flavor

	Each
5- 6 ft.....	\$2.75
6- 7 ft.....	3.00
7- 8 ft.....	3.25
8-10 ft.....	4.00
10-12 ft.....	6.00

Chinquapin—*C. Pumila*

➤ **Rush**, tree form, grows probably 25 ft. Nut good size for species. Plant 2 for pollination.

	Each
1—2 ft. 2 yr.....	\$1.50
2—3 ft.....	2.00

➤ **Grafted Thin Shelled Black Walnut**—*Juglan Nigra*

The black walnut has been called the "king of the forest", my wife says it's the "King" of the kitchen. Nature has done the favor of supplying it in a thin shelled package, easily cracked. If you're tiring of the "rat race" of spending every thing you make toward a "living," you can start choking the speed by planting nut trees on your lawn for lots of food, and plant plenty of black walnuts—they're the best.

Varieties

➤ **Thomas**, the leader and all around nut.

➤ **Elmer Meyers**, the more I see of this nut the better I like

it. So's my customers. For those who like the Stabler, this will take its place—is as thin-shelled, better bearer, better kernel.

✓ **Ohio**, most ornamental foliage. Best bearer with poor care.

✓ **Cornell**, (my introduction) a new northern selection of Thomas seedling. Cornell says Cornell matures its nuts at Ithaca in cool summers when native trees fail. Cracks as well as the Thomas. Try them especially in the north.

NOTE: Cornell not over 5-7 ft.

	Each	Dozen
3- 5 ft., one yr. grafts.....	\$4.50	
5- 7 ft.....	5.50	
7-10 ft.....	6.50	
10-12 ft.....	8.00	
10-12 ft. extra heavy for truck loading only	10.00	

Black Walnut Seedlings—Select Thomas strain. 12-18 Inches. 3 - \$1.50; 6 - \$2.75; 12 - \$5.50.

✓ **Butternuts.** *J. Cinera*. Select Seedlings Only.

	Each	Dozen
One yr. 6-12 in.....	\$.30	\$ 3.00
Two yr. 12-18 in.....	.50	5.00
4- 5 ft.....	1.75	
5- 6 ft.....	2.00	
6- 7 ft.....	2.25	
7- 8 ft.....	4.00	
8-10 ft.....	5.00	
10-12 ft.....	7.00	

Grafted Butternuts — Easy cracking.

✓ Love — Craxezy.

	Each
3- 5 ft. one yr. grafts.....	\$5.00

English or Persian Walnut

Juglans Regia

✓ **Broadview Variety**

Grafted on Black Walnut.

Supply so short only two to a customer and only with an order for other stock, sorry. Will have more this coming fall.

Bears in 5 to 7 years.

	Each
3-6 ft. one yr. grafts.....	\$5.00

✓ **Ashworth:**

This hardy Carpathian English stands 43 below. With its extra sweet nut, is still scarce.

7-10 ft., 2-yr.....	\$10.00
---------------------	---------

✓ **Paw Paws** (*Asimina Triloba*)

Am pleased to offer seedling at the following prices. Don't have many roots but will grow with care.

Plant 2 for Pollenation.

	Each	Dozen
2—3 feet.....	\$.50	\$ 5.00
3—4 feet.....	1.00	10.00

Filberts (*Corylus Avelana*)

(plant two for pollenation)

Bears 3 to 5 years—18 feet height

✓ **Barcellona**, ✓ **Nonpareil**. ✓ **Pollenators**—✓ **Davianna** and ✓ **Du-Chilly**. Do extra well in moist soils but grows anywhere.

	Each	Dozen
3—4 ft.....	\$2.00	\$20.00
4—5 ft.....	2.25	22.50
5—6 ft.....	2.50	25.00

Hybrid Filberts (*C. Mildredii*)

Plant two for Pollenation.

Our observation of the hybrids has been, surer bearers.
First prize winner at the famous Penna. Farm Show.

↘ **Bixby**, and several numbered varieties.

Will substitute with filberts if supply is exhausted.

	Each
2-4 ft.....	\$2.75
4-6 ft.....	3.75

↘ **American Hazels** (*C. Americana*)

Better bearers than others but nuts are smaller.

Plant two for Pollenation.

↘ **Rush**, a fine selection of Penna. hazels.

↘ **Winkler**, excellent from Iowa.

↘ **Ky** — Very small nut, sure bearer.

	Each
2-4 ft.....	\$2.50

↘ **Cut Leaf Filbert:** Odd, different, ornamental—nut small.

2-3 ft.....	\$2.50 each
-------------	-------------

Hazel and Filbert Seedlings.

You know these are the most wonderful things for landscape borders or clumps for wildlife. Come really quite true to type. Plant 6 to 8 ft. on borders.

	Each	Dozen
HAZEL: 1 yr. 6-12 in.....		\$ 3.00
2 yr. 12-24 in.....	\$.50	5.00
FILBERTS: 1 yr. only 4-8 in.....		3.00

Shagbark Hickory Hybrids—Sold out.

Hickoria Ovata X Cordiformis

Hardy Northern Pecan—Bears 7 yrs. *H. Oliviformis*

Marvelous for lawns, very ornamental, Bears in 7 to 10 years.

These varieties selected over many years of observation as the best.

NOTE: These are very scarce and not very large.
Will supply while they last.

↘ **Greenriver** and ↘ **Busseron**, plant two for pollenation.

	Each
3-5 ft.....	\$8.00

Hicans. *A pecan X shellbark, cross.*

All hicans are beautiful shiny foliage. All have excellent flavored nuts. Being hybrids are often slow to bear. Let us select the variety that is best for your locality.

↘ **Girardi**, ↘ **Bixby**, ↘ **Burton**, ↘ **Wright**.

Plant two varieties for pollenation.

NOTE: These are very scarce and not very large.
Will supply while they last.

	Each
3-6 ft.....	\$10.00

↘ **Hege**—*H. Lacciniosa*. Pure Shellbark.

This is an excellent cracker, beautiful foliage. A real find from Iowa.

	Each
3-6 ft.....	\$10.00

SUGAR MAPLE (*Acer Saccharum*)

This remarkable crop tree, the source of the finest sugar and sirup in the world has been over-looked too long by forester and agricultural expert.

It is most beautiful, drought resistant and rapid growing. The only reason YOU haven't tapped your few trees is because it wasn't brought to your attention in our fast moving society.

Any size you wish just so you get started on your home sugar growing.

	Each	Dozen
4- 5 ft.....	\$1.50	\$15.00
5- 6 ft.....	1.75	17.50
6- 8 ft.....	3.00	30.00
8-10 ft.....	6.00	

RED BUD (*Cercis Canadensis*)

As America becomes more conscious of native plants the Red Bud is receiving greater respect, with its purple, rope-like branches of flowers. Maximum height 15 ft.

	Each
3- 4 feet.....	\$ 1.50
4- 5 feet.....	1.75
5- 6 feet.....	2.50
8-10 feet (heavy) blooming.....	6.00

AMERICAN BEECH—*Fagus Americana*.

	Each	Dozen	Hundred
2-3 feet.....	\$1.00	\$10.00	\$75.00

Honey Locust (Thornless) (*My Introduction*)

Gleditsia triacanthos inermis Sweet pods for cattle feed. Bears 3-5 years. Famous for growth value.

The agricultural Experiment Station at Auburn, Alabama reports their 8 year trees bore, figured in oats value with 20 trees per acre equal 125 bushels per acre, plus a crop of hay or pasture without cost of annual field preparation, planting and harvesting. Mature trees will grow as much as 300 bushels of Oats food value per acre.

See Complete Food Analysis in 25¢ booklet.

A site better, read Smith's amazing report on them in "Tree Crops". It's listed on back page.

✓ **Millwood**—This old variety needs no introduction.

✓ **Smith**—More hardy for northern planting.

✓ **Schofer**—Originating at Pennsburg, Pa. is 500 miles farther north than the home of other varieties. Hence it's possibilities in hardiness.

	Each	Dozen
1- 3 ft.....	\$2.00	\$20.00
3- 5 ft.....	3.00	30.00
5- 7 ft.....	4.00	
7-10 ft.....	5.00	

Wm. Penn Oaks—(*My Introduction*)

The most amazing thing about oaks is revealed in my selection work on Penn trees. We found a few trees who's seedlings grow more rapidly than sugar maple. It's amazing

These are the "corn fields of the future." When man grows up to use what he has, he'll **Oak** a mountain ridge, a hill-side, a rocky knoll.

According to production figures of bearing oaks a low of 274 bus. of corn per acre in hog food value can be grown on mts. and steep slopes. You can start YOUR future tax reduction by planting NOW?

Many people insist on a Black, Pin or Red Oak. The WHITE is JUST as beautiful in the autumn with the addition of—the BEST oak timber and the BEST acorn for feeding poultry and hogs.

TURKEY—odd, holly leafed, very ornamental.

White Oak (*Quercus Alba*)

Whips root pruned. These grow faster than maples.

Think I can spare you a few hundred. But order early.

	Each	Dozen
3-4 ft.....	2.00	
4-5 ft.....	3.00	30.00
5-6 ft.....	4.50	45.00
6-7 ft.....	5.50	55.00

White Oak (*Q. Alba*)

Turkey Oak (*Q. Cerris*)

These have remarkable roots and transplant well. No whips—heavy caliper.

	Each	Dozen
7- 8 ft.....	\$6.50	\$65.00
8-10 ft.....	10.00	100.00
10-12 ft.....	12.00	120.00

Following for local trade only, no packing.

12-14 ft.....15.00

Burr: Corky barked, heavy green leafed.

3-4 ft. only.....	\$2.00	\$20.00
-------------------	--------	---------

\ Amelanchier

Juneberry—plant two for pollination

Anyone who wasn't raised with the pleasures of filling up on Juneberries as a kid-enjoyed the early beauty of the first-snowy glow of spring bloom—the rich color of their fruit with flocks of song birds eating them missed something. Don't let your children miss it.

Often known as Shadberry, Juneberry, or Servisberry

Bird feed, chicken feed, for dessert, ornamental

Stolenifera—bush form.

	Each	Dozen
2-3 ft., strong, bushy plants.....	\$.60	\$ 6.00
3-5 ft., strong, bushy plants.....	1.00	10.00

----------------------	---------

\ Chinese Persimmons

\ Great Wall \ Peiping

And now folks I'm able to offer these excellent, marvelous wonders of Oriental horticulture. You know those large ones you like to buy on the market. These are grafted high to prevent frost burst at ground.

Not recommended hardy north of Southern Penna., Jersey, L. I. and southern Ohio, west.

	Each
5—6 ft, 2 yr.....	\$5.00
6—7 ft.....	6.00

Pears—Blight Resistant, Budded.

Here's a family selection.

\ **MAXINE**—Resembles Bartlett—excellent. I've never hooped up this variety too much because, altho knowing it is good, couldn't prove it. Today customers of our local orchard men and others prefer it to the Bartlett About sold out for this spring. Will hold your order for fall if can't fill now. Thanks. Lots of others.

NOTE: Maxine 3-5 ft. and 5-6 ft. only.

\ **WORTON SECKEL**—about three-fourths size of Bartlett, flavor Seckel.

\ **DUCHESS**—A delightfully fall pear.

	Each	Dozen
3—5 ft. one yr. whips.....	\$2.00	\$20.00
5—6 ft.....	2.25	22.50

7—8 ft. heavy.....	3.50	35.00

Golden Weeping Willow

The most hardy, the most beautiful of all weeping willows. For fish feed set by the pond and stream. Their insect pests are great fish food. Try them.

	Each
3-5 ft.....	\$1.50
5-7 ft.....	3.00
Following for local trade only, no packing.	
10—15 ft.....	10.00

Mulberry Morus—Grafted.

This mulberry business got me down. Intoxicated with my preaching I thot I'd sell plenty, instead I pulled them out. Now my preaching "cross fired" with reduced production.

We have a dandy stand of grafts this fall BUT due to draught are only 18-30 in. high. Just the thing for the man who "wants mulberries" who'll proudly nurse a little weak graft to fill goal of his dream. But don't order if looking for machine tool perfection. Late rains indicate might be a lot stronger.

SPECIMEN SIZE MULBERRIES: If you have a local landscaper to dig and plant for you ask for our heavy bearing list of 15-20 ft. trees in 4 varieties.

✓ **Capsrun**—This is a large fruited everbearer. Hardy, very sweet fruit.

✓ **REICHERT**—A new hardy everbearing from S.E. Penna. Fruit about same as Hicks but tree more hardy.

✓ **Hoopes White**—A dandy, pink cheeked, very sweet.

	Each
2-4 ft.....	\$3.50

✓ **Hicks** only: Not hardy much north of southern Pa., N. J., L. I. and a line west.

	Each
4-5 ft.....	\$3.50

Tree Black Berries

This new and interesting blackberry is supposed to grow—according to the introducer—18 ft. high, bear 7 tons per acre. Fruit large, sweet delicious. Here we find one 3 yr. bush supplies all the fruit a small family needs for 6 weeks.

	Each
Strong one yr. canes.....	\$1.00

FOR ORNAMENTAL BIRD FOODS.

I offer the BEST in ornamentals. A bird tree is one with thick dense foliage where birds can nest and roost free from predators. The fruit, foliage and design of our selections are extremely beautiful. Put your "raming around" money in such plantings and the family will think their home their heaven and stay to enjoy it. It's the economics of God and no mistake.

BUSH HONEYSUCKLE—Maacki

Folks this is one of the real Bush Honeysuckles. We have it shading our cave and is a glowing show of red berries fall till January. For real beauty with bird feed this is it. Grows 15-18 ft. Try a few.

	Each	Doz.
Heavy bushes 4-5 ft.....	\$2.50	\$35.00

FLOWERING CRABS

Beautiful pink flowers. Beautiful fruit.

Fruit makes the best jelly this side of heaven.

✓ **Hopa** variety:

	Each
4-5 ft.....	\$2.25
5-6 ft.....	2.75

Dogwood, Native White Flowering *Cornus Florida*

We have the finest stock in America.

Use 25% sawdust in hole.

10-12 ft. heavy.....	10.00

Viburnum-Lentago (Black Haw)

We like this bush all summer because of its leathery shining foliage.

It's flowers in late spring extend the spring blooming beauty. Its bunches of blue black sweet fruit nodding in the breezes hangs till January 1st attracts birds by the hundred—children by the dozen. Plant with 25% sawdust. Height 15-18 ft.

	Each
1-2 ft.....	\$1.00
2-3 ft.....	1.75
4-5 ft., heavy.....	3.50

VIBURNUM OPULUS**(European Highbush Cranberry)**

This richly colored red fruited bush glows gorgeously in the autumn and winter sun. Fruit will hang to early winter if birds don't eat them all. Height 12-15 ft. Plant with 25% sawdust in the hole.

	Each
2-3 ft.....	\$1.00
3-4 ft.....	1.50

THE SYMPHORICARPUS VULGARIS—Coralberry

These make excellent low informal hedges to cover rough banks and dry knolls. Flowers not too conspicuous—late spring. Foliage attractive all summer. Coralberries are glorious red ropes of "glow" on pendulous sweeping branches. Decorative middle to late winter. Good spring bird food.

Coralberry, known as Red Snowberry or Indian Currant

	Each	Dozen	Hundred
2-3 feet.	\$.75	\$ 7.50	\$75.00
Heavy bushes.	1.00	10.00	

BLUEBERRIES BLUEBERRIES

(*Vaccinium Corymbosum*)

HIGH BUSH

Home Grown Blueberries As You Like Them

FAMILY REQUIREMENTS: Six for two. Double the number for the birds, and children.

DISTANCE TO PLANT: five to six feet apart on row. Rows ten feet apart. How many can you use? Six sold at the doz. rate.

CULTURAL CARE: Remember they **must** have light soil and a heavy mulch. If weeds come through pull them.

PLANTING: It's a good thing to mix the soil 50-50. Peat-leaf mold-and sawdust.

Heavy bearing, ✓Cohansey, ✓Concord, ✓Jersey, ✓Stanley, 5 yr. plants, transplanted. They're lifted with a nice ball. Don't know they're moved. Just keep on bearing.

	Each	Dozen
3—4 feet, extra heavy.	\$4.00	\$40.00
2—4 feet, heavy.	3.00	30.00

✓STANLEY, ✓RANCOCAS, ✓JERSEY

These are nice plants priced for mail order trade. Plant a lot and let them grow.

	Each	Dozen
12—18 inches.	\$.80	\$8.00

L I T E R A T U R E

20 years results in Organic soil management. Saves sprays, saves buying fertilizer, stops water run off. Rewritten 1949. 10¢

BOOKLET: Plant America's "Nut Heritage." A Complete treatise on all "Tree Crops." Shows How To Get Rich Without Plowing. Cultural Data. \$1.00

How to Graft booklet. 25¢

REPRINT OF A LECTURE—"My Responsibility As A Citizen In A Free Economy". Free while they last.

TRESPASS SIGNS that work. Get your supply for this fall. They're cute. In large letters **Badly infested with Castanea Mellissima, Regia-Nigra—Dangerous.** \$1.00 per dozen mailed.

And now folks we're starting to arrive. Tree crops are starting to bear. Our fall catalog comes out too late to offer the fruit of the tree. Drop us a line and we'll write you come fall. We expect to have chestnuts, jujube, persimmons, American and Chinese; maybe walnuts.

Biggest kick I'm getting is—reports from farmers who planted our grafted thin shelled nuts years ago while neighbors "smiled". Retired now, they enjoy cracking and picking and marketing at a tremendous profit.

OUR ORGANIC FARM: Don't forget we're taking orders for beef.

TIRED OF THE CITY GRIND?

TRY IT ON THE FARM.

Want a country home with peace and quiet?

If you want 375 acres in profitable production with fruit, cattle, and riding horses in S. E. Pa., drop me a line. It's the city man's dream.

BOOKS

Tree Crops

**An amazing book, Published 1950
400 pages, 145 photos, several charts**

A guide to "riches without plowing" by the mature mind of Dr. J. Russell Smith. He charts our America's #1 Tree Crop Farm here at Downingtown as a guide to those who wish to follow.

With the fall of the soil, falls the economy and culture that robbed it. Whether by war or exhaustion in cultural expansion. A terrible picture awaits the individual who depends on "interdependency" of a materialistic economy, powered by science.

Ten million people will starve to death in a month on the Atlantic seaboard alone with a gas and power failure.

Feed your family by planting crop trees and nut trees. Do it now for ornamentals, for shade, for fence rows and on rocky knolls and steep slopes on the farm.

Just \$6.00 Postpaid cheaper than any college course offered—more valuable.

FARMING AND GARDENING IN THE BIBLE.

A Refreshing Outlook On The Relations Between Man, The Soil, and His God.

by

A. I. MACKAY

Here's a book that fits into your thinking and mine. Ever feel that sacred reading was a sort of meaningless poetic "mumble jumble?" The answer lies in, no one to interpret for you. Along comes MacKay explaining the Greek, the Hebrew and the farming customs of the near east. Changing the whole Bible picture into glorious, simple reading, easily understood instructions for healthy living and penalties for breaking the laws of God made plain.

The relationship of God, soil, soul and man are described in simple farm illustrations. One of the first laws of Moses is; "the land is mine; for ye are strangers and sojourners with me."

MacKay helps free the mind of the searing cancer,—“I'm monarch of all I survey” that goes with the philosophy of “abundant living.”

It stimulates “that part which is of God” in every man to assert it's self more strongly in acquiring a piece of land—to husband God's “good earth.”

The surprising low price of only: \$1.75 plus 1% in Pennsylvania.
